INTERIM REPORT
AS AT 30 JUNE 2019

Fielmann Group: Interim report as at 30 June 2019

Dear Shareholders, Dear Friends of the Company,

The results of the first half of 2019 are in line with our expectations. Year-on-year, Fielmann increased the number of units sold, sales revenue and profits.

Interim company report

The upturn in Germany has slowed down considerably in the current financial year. According to preliminary estimates, the German economy shrank by 0.1% in the second quarter of 2019.

The development in the eurozone is expected to stand at +0.2% in the first half-year. A weak global economy, which is reflected in an export decline, the effects of the USA's trade dispute with Europe and, in particular, China are clearly discernible. Furthermore, the continued uncertainty with regard to the Brexit scenario has a negative impact on economic development in Europe.

The unemployment rate in Germany was 4.9% as at 30 June. The size of the active labour force stood at 45.3 million, which is an increase of 0.9% compared to the previous year.

Change to the accounting principles

The interim report of 30 June 2019 was compiled according to International Financial Reporting Standards (IFRS and IAS). The result for the comparative period takes into account the actual tax ratio of the financial year 2018.

IFRS 16 “Leasing” is mandatory for the reporting periods beginning as of 1 January 2019. This standard sets out the principles for the recognition, measurement and disclosure of leases in the Notes, and has an impact on the presentation of assets, financial position and earnings as well as on the scope of the disclosures required in the Notes.

Fielmann is a lessee as it uses leases to rent business premises. Leasing also plays a minor role in the field of car financing. In the reporting period, the first application of IFRS 16 at Fielmann only led to additional costs of €0.7 million. A significant increase to the balance sheet total has resulted from taking the rights of usufruct from leases (rental agreements) into account. This has an impact on the Fielmann Group’s key figures. The Fielmann Group’s equity ratio fell due to the significant increase to the balance sheet total by €490.2 million from 75.1% as at 31 December 2018 to 55.3% as at 30 June 2019.

Based on the operative leasing commitments as at 31 December 2018, the following reconciliation to the opening balance sheet figures of the leasing liabilities arose as at 1 January 2019:

in €000s	Up to 1 year	Between 1 year and 5 years	More than 5 years	Total
Rental commitments as at 31.12.2018	72,828	218,934	86,120	377,882
Present value of rental commitments as at 31.12.2018	72,828	218,893	82,075	373,796
Rental income from sub-leases which cannot be terminated as at 31.12.2018	-983	-1,634	-390	-3,007
Present value of rental income from sub-leases which cannot be terminated as at 31.12.2018	-983	-1,634	-388	-3,005
Termination or renewal options that could be put into practice with sufficient security	2,761	3,006	9,165	14,932
Present value of sub-leases as at 1.1.2019	-489	-853	0	-1,342
Leasing liabilities as at 1.1.2019	75,095	221,118	90,852	387,065

The leasing liabilities were discounted as at 1 January 2019 using the incremental borrowing rate. The weighted average interest rate amounted to 0.63%.

Cash and cash equivalents totaling €218.7 million (previous year: €294.7 million) include liquid funds as well as securities with a fixed term of up to three months. The development is in relation to the deferral of maturities of the capital investments as well as to increased investments in the second half of 2018 and first half of 2019.

The financial assets, which also count as financial capital, are broken down according to the typical maturities pursuant to IAS 1. The composition of the financial assets of €389.3 million (previous year: €406.2 million) is shown in a separate table on page 7.

Explanatory notes on the cash flow statement

For a better representation, the item "Increase/decrease in other non-current financial assets and capital investments with a term of over three months" from the cash flow from operating activities has been divided into the items "Receipts from the disposal of securities and other investments" and "Payments for the acquisition of securities and other investments", and is now disclosed within the cash flow from investment activity.
